

Full Time Lab/Field Technician

GSE Engineering and Consulting is looking for an enthusiastic self-motivated Lab/Field Technician who is a team player dedicated to the completion of tasks and works efficiently. GSE is a small business that focuses on the betterment of our community through geotechnical, structural, and environmental engineering.

The technician will be responsible for performing field and laboratory testing in accordance with applicable methods and standards, data entry, maintaining field and lab equipment, sample collection, storage, disposal, and producing test documents and reports for review by senior staff. The position requires the ability to work independently as directed by staff to achieve project goals, knowledge of applicable test methods and standards, experience performing a variety of construction materials laboratory and field tests, and the ability to obtain and maintain certifications for applicable test procedures where necessary.

Desired Qualifications:

ACI Concrete Strength Testing Technician

ACI Concrete Field Testing Technician – Grade I

ACI Aggregate Base Testing Technician

Education:

A degree in construction, technology, or related field.

Or

Experience in construction, technology, or related field.

Benefits:

This is a full time position paid hourly. After 60 days, employee will be offered health insurance and company benefits, including a Simple IRA.

GSE Engineering & Consulting is an Equal Opportunity Employer.
